

MOTIVATION ACTIVITY

1. Write the name of the school subjects depicted in the pictures.

2. What have you learnt at school after so many years?
(For example: I learnt numbers, the capital cities of many countries, etc)

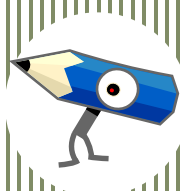

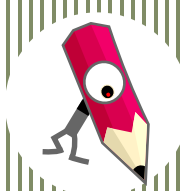

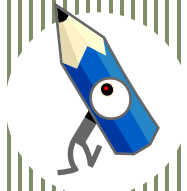

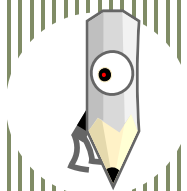

3. Draw an open book and include symbols or pictures of all the things you have learnt at school after all these years.

EDUCATION DOMINO

1. Cut out, and then try to match all the pieces of this domino set.

you can learn and know many things.	Children mustn't work
and must go to school to learn and know their rights.	Reading and writing
are means for communication and to understand the world around you.	Children with no education
will be adults who are ignorant of their rights and have no expectations.	If you have good education
Books teach you	School is a place
where you can discover new and different possibilities for you and your life.	to think and decide by yourself.

2. Once you have successfully joined the two parts of each sentence from the domino game, write the sentences in your notebook.
3. Which idea do you agree with most?
4. Acrostic. Form words or expressions associated with education from the following letters/words.

S		L	
C		E	
H		A	
O		R	
O		N	
L			

SELF-ASSESSMENT

It's time to check out what you have learnt. Circle the correct option in each case.

- Education is a right / a privilege.
- Learning is taking exams / learning about opportunities in life.
- Education means assuring well-being / homework.
- You never stop learning/ You stop learning when you leave school.
- You can get a job and all primary necessities if you go to school / if you win the lottery.
